Project Title: 677565_CRPC_OG

Project Applicant: California Resources Production Corporation

Project Location: Kern County, Paloma Oil Field; Section 2/Township 32S/Range
26E/B&M MD; Latitude: 35.16658401/Longitude: -119.15692139

Project Description:

CRPC proposes to rework well 48X-2, an existing oil and gas well located in the Paloma Oil Field. The proposed rework is located on private surface to private minerals. The rework consists of Adding Perforations. The proposed rework falls under Group A of CalGEM's rework exemptions guidance document published in December 2023. The proposed rework will take approximately 7 to 10 days to complete.

The proposed project consists of the California Department of Conservation, Geologic Energy Management Division (CalGEM) approving a permit for California Resources Production Corporation to rework the well listed below, in the Paloma Oil Field.

API #	Well Name
0402971725	Paloma 48X-2

Exempt Status: As the Lead Agency, CalGEM has determined that the proposed project is exempt from full environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below. CalGEM further finds that the proposed project would not result in a significant adverse impact to the environment, or that any of the exceptions to the application of the exemptions apply (14 CCR § 15300.2).

Exemption Type		Statute (PRC)	Regulation (14 CCR)	
<input type="checkbox"/>	Statutory Exemption:			
	<input type="checkbox"/> Ongoing Project (<i>pre-CEQA approval on April 5, 1973</i>)	21169	15261 (b)

<input type="checkbox"/>	General Exemption ("common sense")		15061 (b)(3)	
<input type="checkbox"/>	Not a "Project" subject to CEQA		15378 (b)(2)	
<p>CEQA Exceptions to the Exemptions (14 CCR § 15300.2): where project is located (e.g., sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.</p>				

Reasons Why Project is Exempt: The basis for CalGEM's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

Class 1, Existing Facilities (14 CCR §§ 15301, 1684.1):

Class 1 consists of the "operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features involving negligible or no expansion of use beyond that existing previously." This includes "remedial, maintenance, conversion, and abandonment work on oil, gas, injection, and geothermal wells involving the alteration of well casing, such as perforating and casing repair, removal, or replacement; installation or removal of downhole production or injection equipment, cement plugs, bridge plugs, and packers set to isolate production or injection intervals." (14 CCR § 1684.1.) The proposed project would make minor alterations to the well(s), resulting in negligible expansion of use beyond that existing
