Project Title: South Fork Mokelumne River Watershed Restoration - Phase 3 Treatment (SNC #1067)

Project Applicant: Calaveras Healthy Impact Product Solutions (CHIPS)

Project Location (include county): Sandy Gulch, Wilseyville, and Railroad Flat, Calaveras County

Project Description:

The Sierra Nevada Conservancy would provide \$865,835 in funding to treat surface and ladder fuels on 285 acres of forested land administered by the Bureau of Land Management within the South Fork Mokelumne River watershed. Project objectives are to enhance watershed health, reduce the risk of wildfire ignition and spread, reduce erosion hazard, protect water quality, and increase forest ecological resilience overall. Treatments associated with the project would include mechanical mastication and hand thinning, as well as chipping and pile burning.

This is to advise that the Sierra Nevada Conservancy has approved the above
 Lead Agency or Responsible Agency)

described project on March 7, 2019 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [were were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [was was not] adopted for this project.
5. A statement of Overriding Considerations [was was not] adopted for this project.
6. Findings [were were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

State Clearinghouse Number (If submitted to State Clearinghouse): 2018042049

Project Title: South Fork Mokelumne Watershed Restoration Project

Project Applicant: Sierra County

Project Location (include county):

The 217-acre project is located in Sierra County on national forest system lands in the headwaters of the North Yuba River adjacent to State Route 49 east of the communities of Sierra City and Bassetts to Yuba Pass.

Project Description:

The Sierra Nevada Conservancy would provide funding for the South Fork Mokelumne Watershed Restoration Project, which is designed to remove dense understory brush and thin derelict pine plantations on approximately 900 acres of forested land administered by the BLM. Because the BLM lands span both sides of the South Fork Mokelumne River, it is a strategic place to construct a shaded fuel break. The project is intended to create fire-resilient conditions, reduce the risk of wildfire, and control bark beetle infestation while increasing water yield and sequestering carbon.

This is to advise that the Sierra Nevada Conservancy has approved the above ([] Lead Agency or [] Responsible Agency)

described project on 6/7/2018 and has made the following determinations regarding the above (date) described project.

- 1. The project will not have a significant effect on the environment
2. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA
3. Mitigation measures were a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project
5. A statement of Overriding Considerations was not adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.
