
Central Coast Regional Water Quality Control Board

TO: State Clearinghouse

FROM: Shanta Keeling
Water Resources Control Engineer

DATE: May 5, 2021

SUBJECT: SCH No. 2018021050 - General Waste Discharge Requirements for Discharges from Irrigated Lands (Agricultural Order) - replacing Volume 2

This memo serves as a request to have the State Clearinghouse replace Volume 2 of the Final EIR with the attached, *revised Volume 2*. The *revised Volume 2* includes updates to Appendix A (Agricultural Order) only.

We are requesting the *revised Volume 2* replace the existing Volume 2 so that Appendix A accurately reflects the final Agricultural Order adopted at the April 15, 2021 Central Coast Water Board Hearing. Water Board staff were unable to update Appendix A (Agricultural Order) within the five business days required to submit the Notice of Determination.

If you have any questions, please email Shanta.Keeling@waterboards.ca.gov or contact her by phone at 805-549-3464.

Attachment: Volume 2 of the Final EIR for SCH no. 2018021050
