NOTICE IS HEREBY GIVEN in compliance with Sections 15086 and 15087 of the California Environmental Quality Act (CEQA) Guidelines, to responsible agencies, trustee agencies, interested parties and the general public, that the Revised Draft Environmental Impact Report (RDEIR) for the Scott Ranch Project (formerly Davidon/Scott Ranch) is available for public review and comment.

PROJECT LOCATION: Northwest and southwest corners of Windsor Drive and D Street, Petaluma, Sonoma County, California. APN 019-120-040 and 019-120-041.

PROJECT DESCRIPTION: The Scott Ranch project consists of a residential component and the Putnam Park Extension Project. The residential component proposes development on approximately 15 acres of the project site and includes 28 single-family residences, streets, common open space, and other infrastructure improvements including a roundabout at Windsor Dr./D Street, pedestrian and bicycle facilities, and sewer, water, and storm drainage facilities. The proposed Putnam Park Extension Project component proposes to extend the existing Helen Putnam Regional Park eastward to D Street by developing a park area on approximately 44-acres of the project site. The Putnam Park Extension portion of the project proposes development of a barn center that includes renovation of the existing barn complex and cleaning shed, installation of pathways, bicycle parking, information kiosks, vegetable gardens, demonstration and working corrals, antique farm equipment, and an amphitheater for outdoor learning activities. This project component includes a multi-use loop trail network of approximately one mile, north and south of Kelly Creek. A 300-foot Urban Separator will be maintained between the proposed development and the southern boundary of the project site. The project also includes the off-site Helen Putnam Regional Park Trail project; a 0.5-mile-long trail segment proposed by Sonoma County Regional Parks.
