Project Title: Arastradero Road Repair Project
Project Applicant: County of Santa Clara, Roads and Airports Department
Project Location (include county): Santa Clara

Project Description:
The project would install a soldier pile wall with concrete facing directly adjacent to Arastradero Road where high storm flows eroded the roadway embankment during the winter of 2016-2017. The wall would be located from 2-5 feet from the existing roadway shoulder and would be approximately 100 feet long. The pilings would be driven to a depth of approximately 20 feet. Minor dewatering of the work area may be required. Clean gravel bags would be used to divert creek flows away from the work area. Construction staging would occur on the widened roadway shoulder approximately 100 feet east of the work area.
