**LEAD AGENCY AND ENTITY CARRYING OUT PROJECT:** City of La Mesa (Applicant)

**RESPONSIBLE AGENCY APPROVING PROJECT:** State Water Resources Control Board (State Water Board)

**PROJECT LOCATION:** Public rights-of-way and easements, along both the south and north sides of Interstate 8, and in a developed section of Alvarado Canyon in the City of La Mesa, in the County of San Diego.

**PROJECT DESCRIPTION:** The Project involves the rehabilitation or replacement by trenchless and open trench installation of existing sewer pipelines to reduce storm water intrusion and amount of sewer flows discharged to the Point Loma Wastewater Treatment Plan. Pipeline segments that can be rehabilitated will be relined rather than replaced. Some pipeline segments may require relocation for better hydraulics or easier maintenance access. Manholes will also be rehabilitated or replaced, depending on conditions. One segment of approx. 250 feet of new pipe will be installed using trenchless techniques.

This is to advise that the State Water Board made the following California Environmental Quality Act (CEQA) determinations and approved CWSRF financing on May 6, 2020 for the Project:

1. Determinations were made pursuant to the CEQA.
2. The State Water Board considered the Initial Study/Mitigated Negative Declaration as prepared by the Applicant for this Project.
3. A Mitigation Monitoring and Reporting Program was adopted by the Applicant for this Project.
4. Mitigation measures were made a condition of the Applicant's approval of the Project.
5. A Statement of Overriding Considerations was not adopted by the Applicant for this Project.
6. The Project will not have any adverse significant water quality effects.

This is to certify that the Initial Study/Mitigated Negative Declaration with comments and responses and record of funding approval for the Project are available to the general public at the State Water Board, Division of Financial Assistance at the above address.
