Project Title: American River Watershed Common Features 2016 Project, American River Contract 1

Project Applicant: Central Valley Flood Protection Board

Project Location (include county): Left bank of American River from Guy West Bridge to Glenn Hall Park (Sacramento Co.)

Project Description:

The Project includes the installation of approximately 5,500 linear feet of erosion protection along the left bank of the American River in Sacramento, California from just upstream of the Guy West Bridge downstream to Glenn Hall Park. The purpose of the Project is to reduce flood risk to the City of Sacramento by proactively constructing levee improvements that reduce the risk of levee failure due to levee erosion. The Project includes the installation of a riparian planting bench and in-stream woody material to provide on-site habitat to fish and wildlife species. The Project also includes construction of three off-site habitat mitigation sites, including one site along the left bank near Glenn Hall Park and two sites along the right bank near Rio Americano High School.

This is to advise that the California Department of Water Resources has approved the above
 Lead Agency or Responsible Agency)

described project on _____ and has made the following determinations regarding the above
(date)
described project.

1. The project [will will not] have a significant effect on the environment.
