Dear Mr. Busch:

**Amendment of Lake or Streambed Alteration Agreement
Notification No. 1600-2020-0092-R2
Sacramento River; Joint Intake and Fish Screen Erosion Repair**

The California Department of Fish and Wildlife (CDFW) has received your request to amend Lake or Streambed Alteration Agreement No. 1600-2020-0092-R2 (Agreement) and the required fee in the amount of \$457.25 for a minor amendment. Your request to amend the Agreement includes the following changes:

1. The 189 cubic yards of rock slope protection described in the Agreement will be buried under one (1) foot of soil instead of being left bare. The soil cover will be compacted, seeded, and covered with coir erosion control blankets. Approximately 98 cubic yards of native soil will be used to cover the rock slope protection. No change to the project's footprint impact is proposed.
2. The total volume of native soil that will be excavated will increase from 150 to 210 cubic yards. Of this, 112 cubic yards will be hauled offsite.

CDFW hereby agrees to amend the agreement as requested. All conditions in the Agreement remain in effect.

Copies of the Agreement and this amendment must be readily available at project worksites and must be presented when requested by a CDFW representative or agency with inspection authority.

If you have any questions regarding this letter, please contact Gabriele Quillman, Environmental Scientist at (916) 358-2955 or by email at gabriele.quillman@wildlife.ca.gov.
