Please see respective pages for information regarding each location.

2. Planned, funded, and/or scheduled improvements or expansions to the City library facilities that would serve the Project;

Answer:

There are currently no planned improvements or expansions to these locations.

3. Special facilities available for public use (i.e., children's reading assistance, homework centers, space for community meetings and programs); and

Answer:

Please see respective pages for information regarding each location

4. City library service standards and/or goals that would assist in analyzing the Project's potential impacts from development on local library services.

Answer:

On February 8, 2007, The Board of Library Commissioners approved a new Branch Facilities Plan. This Plan includes criteria for new Libraries, which recommends new size standards for the provision of LAPL facilities – 12,500 s.f. for community with less than 45,000 population and 14,500 s.f. for community

with more than 45,000 population and up to 20,000 s.f. for a Regional branch. It also recommends that when a community reaches a population of 90,000, an additional branch library should be considered for the area.

5. Would the Project, either individually or combined with other past, present or anticipated future projects, result in the need for new or altered library facilities? If so, please describe the nature, approximate location and approximate size of the new or altered facility. (Please see related projects list provided with this Request for Information.)

Answer:

Any increase in the residential and/or commuter-adjusted population that is in close proximity to a library has a direct impact on library services with increased demands for library staffing, materials, computers, and information services. Therefore, mitigation measures may be necessary in order to lessen the impact to these services to a level that is appropriate for a given service population in accordance to the February 8, 2007 Board of Library Commissioners approved Branch Facilities Plan.

The Los Angeles Public Library recommends a mitigation fee of \$200 per capita based upon the projected population of the development. The funds will be used for staff, books, computers and other library materials. It is recommended that mitigation fees be paid for by the developer.
