**Project Description:** *(please use a separate page if necessary)*

Since adoption of the Ventura Harbor Marina and Yacht Yard (VHMY) Expansion Final IS-MND, several modifications to the 2015 VHMY Expansion (2015 Planned Project) have been proposed. The Parcels 20 and 14 Redevelopment Project (Current Project) would be similar to the 2015 Planned Project in that the Current Project would include an expanded dock structure, improvements to the fuel dock, and improvements to the parking lot, although such improvements would be modified from those proposed under the 2015 Planned Project. The Current Project would also include additional improvements not proposed under the 2015 Planned Project, including a new mixed-use Marine Services building, reconfiguration of and improvements to the boat storage area adjacent to the parking lot, and other minor facility improvements within the project area. It should be noted that none of the improvements planned in 2015 were completed. Specifically, the Current Project would include a marina replacement which would involve the removal of the existing dock structure and replacement with a new larger dock structure (increase from 32 to 74 commercial and recreational boat slips [including four new ADA-compliant slips], which is six less slips than included in the 2015 Planned Project).
