Present Land Use/Zoning/General Plan Designation:

Description:
The West Mojave Planning Area is located to the northeast of the Los Angeles metropolitan area (See Figure 1.1-1). The conservation program established by the 2006 WEMO Plan amendment to the CDCA Plan applies to the BLM-administered public lands in the Planning Area. The WMRNP amendment to the Livestock Grazing, Motorized Vehicle Access, and Recreation Elements of the CDCA Plan, and the route designation process updates that would be incorporated into the CDCA Plan, if approved, would be applicable only to the BLM-administered public lands within the West Mojave Planning Area. The other changes analyzed in this SEIS would likewise apply only to the BLM administered public lands within the West Mojave Planning Area.

The West Mojave Planning Area currently totals 9.4 million acres, of which approximately 3.1 million acres are BLM administered public lands. The 2012-2013 inventories of routes for the West Mojave Planning Area identified approximately 15,000 miles of linear features that constitute the inventory of primitive routes in limited access areas, i.e., outside of Off Highway Vehicle (OHV) Open Areas, on public lands. The development of this inventory and its relationship to the 2006 WEMO Plan inventory are discussed further in Section 1.1.4 and in Chapter 3.
