Project Description: (please use a separate page if necessary)

The project consists of two main components: 1) the approval and implementation of the proposed San Vicente Redwoods Public Access Plan, and 2) the construction and operation of an approximately 38-mile multiple use trail system over approximately 8,500 acres and a parking area in the San Vicente Redwoods of the Santa Cruz Mountains. The trail system and the parking area (with approximately 90 parking spaces) would be developed in phases. The proposed trails would be available for: hiking, biking, horse riding, dog walking (on-leash only), small group gatherings, as well as nature observation.
