WHAT IS BEING PLANNED?

The California Department of Transportation (Caltrans) proposes to replace the Limekiln Creek Bridge in Limekiln State Park, near the community of Lucia, located on State Route 1 in Monterey County. Build alternatives under consideration include two two-span replacement bridges west of the existing bridge.

WHY THIS PUBLIC NOTICE?

Caltrans has studied the effects this project may have on the environment. Our studies show the project will significantly affect the quality of the environment. The report that explains why is called an Environmental Impact Report/Environmental Assessment. This notice is to inform you of the completion of the Draft Environmental Impact Report/Environmental Assessment and of its availability for you to read and comment on. A virtual public hearing will be held to give you an opportunity to talk about certain design features of the project with Caltrans' staff before the final design is selected.
