**SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108**

**State Clearinghouse Number:** 2018122049

**Project Title:** Unnamed Tributary to Kingsbury Gulch Stream Restoration Project (Streambed Alteration Agreement EPIMS-TRI-11982-R11)

**Project Location:** The project is located at an unnamed, Class III tributary to Kingsbury Gulch in Hayfork Valley in the County of Trinity, State of California; Street address 670 Dirt Road, Hayfork, CA, 96041; Latitude 40.533684N, Longitude -123.179422W; Assessor's Parcel Number (APN) 014-440-41-00.

**Project Description:** The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number EPIMS-TRI-11982-R11, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Bong Yang.

The project is limited to the restoration of approximately 145 linear feet of ephemeral stream channel, including the excavation of road materials placed within the stream and the realignment of the channel. A road connecting the residence and a cannabis cultivation site currently exists over the segment of stream channel to be restored. The restored stream will be a minimum of 4-feet wide, with a 5 percent-sloped stream bottom. Shrubs and grass will be removed during the excavation of the channel but will be revegetated according to permanent best management practices. Soil within 50 feet of the restored channel will be stabilized. Straw wattles will be placed strategically along the stream channel to prevent erosion, and straw cover will be placed over exposed soil. No permanent impacts to fish and wildlife resources are expected to result from project activities.

**Notice of Determination****- 2 -**

This is to advise that CDFW, acting as a Responsible Agency, approved the above-described project on January 10, 2024, and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project  will /  will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the environmental impact report prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures  were /  were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan  was /  was not adopted by CDFW for this project.
5. A statement of overriding considerations  was /  was not adopted by CDFW for this project.
6. Findings  were /  were not made by CDFW pursuant to California Code of Regulations section 15091.

The final environmental impact report prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as Responsible Agency is available at CDFW's regional office.
