

**CALIFORNIA ENVIRONMENTAL QUALITY ACT**  
**NOTICE OF DETERMINATION**

To: Office of Planning and Research  
State Clearinghouse  
P.O. Box 3044, 1400 Tenth Street, Room 212  
Sacramento, CA 95812-3044

From: Department of Toxic Substances Control  
Permitting Division  
8800 Cal Center Drive  
Sacramento, CA 95826

**Subject:** Filing of Notice of Determination in Compliance with § 21108 of the Public Resources Code

**Project Title:** Demenno/Kerdoon dba World Oil Recycling

**State Clearinghouse Number:** 1995031067

**Project Location:** 2000 N. Alameda St., Compton, California

**County:** Los Angeles

**Project Applicant:** : Demenno/Kerdoon dba World Oil Recycling

**Project Description:** The California Department of Toxic Substances Control (DTSC), pursuant to authority granted under Division 4.5, California Code of Regulations, Title 22, Chapter 20 prepared an addendum to a previously certified Environmental Impact Report for a Class 1\* Permit Modification to amend the existing Hazardous Waste Facility Permit at the Demenno/Kerdoon dba World Oil Recycling Facility (Facility). The Class 1\* Permit Modification will incorporate modifications to the Facility's Waste Analysis Plan (WAP), included as Section C of the Permit Application. Modifications to the WAP are incorporated in accordance with a June 25, 2019, Consent Agreement and Final Order (CA/FO) between the Facility and the USEPA, pursuant to 40 Code of Federal Regulations Sections 22.13 and 22.18. Specifically, the Permit Modification will incorporate the following modifications to the WAP:

- 1) Addition of waste determination procedures for asphalt flux production from waste oil; and
- 2) Addition of procedures to include periodic determination at the point of generation for each waste stream processed through the solid waste reduction unit.

The Facility has modified the WAP to comply with Sections H.61, H.62, and H.64 of the CA/FO. Additionally, the Facility has incorporated procedures for fingerprint analyses to document that wastes received comply with acceptance requirements. No changes in capacity or construction are proposed.

This project would not affect any aspect of the environment and requires no new construction. All additional activities will continue to be consistent with the Hazardous Waste Permit and will not result

in physical changes. There are no proposed physical changes to the Facility that were not included in the previously certified EIR, for which the prepared addendum is updating.

As Lead Agency under the California Environmental Quality Act (CEQA), DTSC approved the above-described project on September 8, 2023, and has made the following determinations:

1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were not made a condition of project approval by DTSC.
4. A mitigation reporting or monitoring plan was not adopted for this project by DTSC.
5. A Statement of Overriding Considerations was not adopted for this project by DTSC.
6. Findings were not made pursuant to the provisions of CEQA by DTSC.

The administrative record for this project is available to the public by appointment at the following location:

Department of Toxic Substances Control  
Permitting Division  
8800 Cal Center Drive  
Sacramento, CA 95826
