PROJECT TITLE: Birchway Apartments PLNG 24-039

PROJECT APPLICANT: Greystar Development West, LLC
Gabe Gardner (Representative)
3400 Cottage Way, Suite H
Sacramento, CA 95825
916-239-8458

R4PROJECT LOCATION: Elk Grove California, Sacramento County

ASSESSOR'S PARCEL NUMBER(S): 132-0050-121

PROJECT DESCRIPTION: The Birchway Apartments Project (the "Project") consists of a Major Design Review and District Development Plan Design Review for a new multi-unit residential apartment complex with 276 units and associated site improvements including parking, lighting, and landscaping. The Project will have seven, three-story buildings as well as both indoor and outdoor amenities including a clubhouse, fitness area, swimming pool and spa, playground, BBQ/dining area, and a covered lounge area.

This is to advise that on April 17, 2025, the City of Elk Grove Planning Commission approved the above-described Project and has made the following determinations regarding the above-described project.

Finding: Finding that no further environmental review is necessary under CEQA pursuant to State CEQA Guidelines Section 15162 (Subsequent EIRs and Negative Declarations) and Section 15183 (Projects Consistent with a Community Plan, General Plan, or Zoning).

Evidence: CEQA requires analysis of agency approvals of discretionary "projects." A "project," under CEQA, is defined as "the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment" (State CEQA Guidelines Section 15378). The proposed Project is a project under CEQA.

No further environmental review is required under CEQA pursuant to State CEQA Guidelines 15162 (Subsequent EIRs and Negative Declarations). State CEQA Guidelines Section 15162 provides that when an EIR has been certified for an adopted project, no subsequent EIR shall be prepared for that project unless the lead agency determines, on the basis of substantial evidence in light of the whole record, that one or more of the following exists:

1. Substantial changes are proposed in the project which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;
2. Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or
3. New information of substantial importance, which was not known and could not have been known with exercise of reasonable diligence at the time of the previous EIR was certified as complete shows any of the following:
 - a. The project will have one or more significant effects not discussed in the previous EIR;
 - b. Significant effects previously examined will be substantially more severe than shown in the previous EIR.
 - c. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or
 - d. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measures or alternative.

In 2004, the City Council certified an EIR for the Laguna Ridge Specific Plan (LRSP, State Clearinghouse No. 2000082139). The LRSP EIR analyzed full buildout of LRSP based upon the land plan, development standards, and policies contained in the General Plan and LRSP, as well as the improvements identified in the accompanying infrastructure master plans. The Project is subject to the LRSP Mitigation, Monitoring and Reporting Program (MMRP).

Staff has reviewed the Project and analyzed it based upon the above provisions in Section 15162 of the State CEQA Guidelines. The Project is being undertaken pursuant to and in conformity with the approved LRSP. No special circumstances exist and no changes in the Project have occurred that would necessitate the preparation of subsequent environmental review. No additional environmental impacts have been identified for the Project other than

those previously disclosed and analyzed in the EIRs for the LRSP and General Plan. Furthermore, since no changes to the EIR are necessary to support the Project, the City is not required to prepare an Addendum to the EIR as required by State CEQA Guidelines Section 15164. Therefore, the prior EIR is sufficient to support the proposed action and no further environmental review is required.

Additionally, staff finds that no further environmental review is required under State CEQA Guidelines Section 15183 (Consistency with a General Plan, Community Plan, or Zoning). State CEQA Guidelines Section 15183 (Public Resources Code §21083.3), provides that projects which are consistent with a Community Plan, General Plan, or Zoning for which an environmental impact report (EIR) has been certified "shall not require additional environmental review, except as might be necessary to examine whether there are project-specific significant effects which are peculiar to the project or its site." In February 2019, an EIR was prepared and certified by the City Council as part of the Elk Grove General Plan Update (SCH# 2017062058). The Project is subject to the General Plan MMRP.

The General Plan EIR relies on Vehicle Miles Traveled (VMT) as a measure of transportation impacts. The Project site is in a pre-screened area as defined by the City's Transportation Analysis Guidelines adopted with the General Plan. The Project shall comply with the City's Climate Action Plan (CAP) for new multi-unit residential development, including CAP measures related to energy efficiency (BE-4), electric appliances (BE-6), off-road construction fleet (TACM-8), and electric vehicle charging (TACM-9).

No potential new impacts related to the Project have been identified that would necessitate further environmental review beyond the impacts and issues already disclosed and analyzed in the LRSP and General Plan EIRs. No other special circumstances exist that would create a reasonable possibility that the Project will have a significant adverse effect on the environment. Therefore, the prior EIRs are sufficient to support the proposed action and pursuant to State CEQA Guidelines Section Sections 15162 and 15183, no further environmental review is required.

This is to certify that the Initial Study/Mitigated Negative Declaration is available to the General Public at: City of Elk Grove, 8401 Laguna Palms Way, Elk Grove, CA 95758

STATE CLEARINGHOUSE NUMBER: 2017062058

PROJECT TITLE: General Plan Update

PROJECT APPLICANT: City of Elk Grove

PROJECT LOCATION: Elk Grove California, Sacramento County

PROJECT DESCRIPTION: The City of Elk Grove is conducting a comprehensive update of its General Plan. State law (Government Code Section 65300) requires each city and county to adopt a comprehensive, long-term general plan for its physical development. The City's current General Plan was adopted in 2003, with various amendments and changes made since then, and serves to direct the City's future growth and development as well as its conservation policy. The General Plan is now being updated to ensure that this guiding policy document remains a useful tool, keeps pace with change, and provides workable solutions to current and future issues. The General Plan includes the following State-required elements or topics: Land Use, Circulation, Housing, Conservation, Open Space, Noise, Safety, and Environmental Justice. The updated Elk Grove General Plan is divided into 10 chapters, which together address the topics mandated by the State, as well as additional topics of interest to the City.

This is to advise that on **February 27, 2019**, the City of Elk Grove City Council has approved the above described project and has made the following determinations regarding the above described project.

- The project will have a significant effect on the environment.
- An Environmental Impact Report has been prepared and adopted for this project pursuant to the provisions of CEQA.
- Mitigation measures were made a condition of approval of this project.
- A Mitigation Monitoring and Reporting Plan was adopted for this project.
- Findings were made pursuant to the provisions of the California Environmental Quality Act (CEQA).

This is to certify that the Environmental Impact Report is available to the General Public at: City of Elk Grove, 8401 Laguna Palms Way, Elk Grove, CA 95758

Subject: Filing of Notice of Determination in compliance with Section 21152 of the Public Resources Code and Section 15094 of the California Environmental Quality Act Guidelines

On June 17, 2004, the Elk Grove City Council certified the Laguna Ridge Specific Plan Revised Final Environmental Impact Report (EIR) (consisting of the Revised Draft EIR, comments and responses to comments on the Revised Draft EIR, and minor edits to the Revised Draft EIR), pursuant to the California Environmental Quality Act (CEQA), and adopted the Laguna Ridge Specific Plan. As part of the certification of the Revised Final EIR, the Elk Grove City Council took the following actions:

- Certified that the Revised Final EIR had been prepared and completed in compliance with CEQA.
- Made findings that certain mitigation measures described in the Revised Final EIR are feasible and were included and adopted, and therefore become binding upon the Laguna Ridge Specific Plan.
- Made findings pursuant to Section 15091 of the CEQA Guidelines.
- Adopted a Statement of Overriding Considerations regarding the significant and unavoidable impacts associated with implementation of the Laguna Ridge Specific Plan.

Project Description

The Laguna Ridge Specific Plan project involves the implementation of a specific plan for 1,900 acres in the City of Elk Grove. The Laguna Ridge Specific Plan would include the development of residential, commercial, park, public school, and mixed-use land uses, including: 7,762 units of single-family and multi family residential; 195.5 acres of commercial uses; 50.9 acres of office uses; 18.6 acres for a Civic Center; 164.9 acres of parks, 69.3 acres of open space and parkways; 106 acres dedicated to schools; 17.4 acres for fire station and water treatment facilities; and 74.4 acres for roadways. The Laguna Ridge Specific Plan is bounded by State Route 99 on the east, Elk Grove Boulevard on the north, Bruceville Road on the west, and Bilby Road and Poppy Ridge Road on the south.

Environmental Effects

The following environmental issues were evaluated in the Revised Final EIR:

- Agricultural Resources
- Air Quality
- Hazards
- Hydrology and Water Quality
- Geology and Geotechnical Hazards
- Visual Quality
- Transportation and Circulation
- Noise
- Public Services and Utilities
- Biological Resources
- Cultural Resources
- Land Use

The City Council found that the approved Laguna Ridge Specific Plan would have a significant effect on the environment. Significant and unavoidable environmental impacts identified in the Final EIR are summarized below:

- Agricultural Resources (loss of agricultural lands under project and cumulative conditions)
- Transportation and Circulation (increased traffic volumes on local roadways, intersections and state highway facilities under project and cumulative conditions)
- Air Quality (construction emissions, operational emissions, regional impacts under project and cumulative conditions)
- Noise (construction noise and agricultural noise under project and cumulative conditions)
- Biological Resources (cumulative loss of biological resources)
- Public Services and Utilities (cumulative water supply impacts on the Cosumnes River from groundwater production)
- Visual Resources (alteration of scenic resources; conversion from rural to urban uses and light and glare effects under project and cumulative conditions)

The City has adopted a Statement of Overriding Considerations, pursuant to Section 15093 of the CEQA Guidelines.

Availability of the Final EIR and Record of Project Approval

Subject: Filing of Notice of Determination in compliance with Section 21152 of the Public Resources Code and Section 15094 of the California Environmental Quality Act Guidelines

On June 17, 2004, the Elk Grove City Council certified the Laguna Ridge Specific Plan Revised Final Environmental Impact Report (EIR) (consisting of the Revised Draft EIR, comments and responses to comments on the Revised Draft EIR, and minor edits to the Revised Draft EIR), pursuant to the California Environmental Quality Act (CEQA), and adopted the Laguna Ridge Specific Plan. As part of the certification of the Revised Final EIR, the Elk Grove City Council took the following actions:

- Certified that the Revised Final EIR had been prepared and completed in compliance with CEQA.
- Made findings that certain mitigation measures described in the Revised Final EIR are feasible and were included and adopted, and therefore become binding upon the Laguna Ridge Specific Plan.
- Made findings pursuant to Section 15091 of the CEQA Guidelines.
- Adopted a Statement of Overriding Considerations regarding the significant and unavoidable impacts associated with implementation of the Laguna Ridge Specific Plan.

Project Description

The Laguna Ridge Specific Plan project involves the implementation of a specific plan for 1,900 acres in the City of Elk Grove. The Laguna Ridge Specific Plan would include the development of residential, commercial, park, public school, and mixed-use land uses, including: 7,762 units of single-family and multi family residential; 195.5 acres of commercial uses; 50.9 acres of office uses; 18.6 acres for a Civic Center; 164.9 acres of parks, 69.3 acres of open space and parkways; 106 acres dedicated to schools; 17.4 acres for fire station and water treatment facilities; and 74.4 acres for roadways. The Laguna Ridge Specific Plan is bounded by State Route 99 on the east, Elk Grove Boulevard on the north, Bruceville Road on the west, and Bilby Road and Poppy Ridge Road on the south.

Environmental Effects

The following environmental issues were evaluated in the Revised Final EIR:

- Agricultural Resources
- Air Quality
- Hazards
- Hydrology and Water Quality
- Geology and Geotechnical Hazards
- Visual Quality
- Transportation and Circulation
- Noise
- Public Services and Utilities
- Biological Resources
- Cultural Resources
- Land Use

The City Council found that the approved Laguna Ridge Specific Plan would have a significant effect on the environment. Significant and unavoidable environmental impacts identified in the Final EIR are summarized below:

- Agricultural Resources (loss of agricultural lands under project and cumulative conditions)
- Transportation and Circulation (increased traffic volumes on local roadways, intersections and state highway facilities under project and cumulative conditions)
- Air Quality (construction emissions, operational emissions, regional impacts under project and cumulative conditions)
- Noise (construction noise and agricultural noise under project and cumulative conditions)
- Biological Resources (cumulative loss of biological resources)
- Public Services and Utilities (cumulative water supply impacts on the Cosumnes River from groundwater production)
- Visual Resources (alteration of scenic resources; conversion from rural to urban uses and light and glare effects under project and cumulative conditions)

The City has adopted a Statement of Overriding Considerations, pursuant to Section 15093 of the CEQA Guidelines.

Subject: Filing of Notice of Determination in compliance with Section 21152 of the Public Resources Code and Section 15094 of the California Environmental Quality Act Guidelines

On June 17, 2004, the Elk Grove City Council certified the Laguna Ridge Specific Plan Revised Final Environmental Impact Report (EIR) (consisting of the Revised Draft EIR, comments and responses to comments on the Revised Draft EIR, and minor edits to the Revised Draft EIR), pursuant to the California Environmental Quality Act (CEQA), and adopted the Laguna Ridge Specific Plan. As part of the certification of the Revised Final EIR, the Elk Grove City Council took the following actions:

- Certified that the Revised Final EIR had been prepared and completed in compliance with CEQA.
- Made findings that certain mitigation measures described in the Revised Final EIR are feasible and were included and adopted, and therefore become binding upon the Laguna Ridge Specific Plan.
- Made findings pursuant to Section 15091 of the CEQA Guidelines.
- Adopted a Statement of Overriding Considerations regarding the significant and unavoidable impacts associated with implementation of the Laguna Ridge Specific Plan.

Project Description

The Laguna Ridge Specific Plan project involves the implementation of a specific plan for 1,900 acres in the City of Elk Grove. The Laguna Ridge Specific Plan would include the development of residential, commercial, park, public school, and mixed-use land uses, including: 7,762 units of single-family and multi family residential; 195.5 acres of commercial uses; 50.9 acres of office uses; 18.6 acres for a Civic Center; 164.9 acres of parks, 69.3 acres of open space and parkways; 106 acres dedicated to schools; 17.4 acres for fire station and water treatment facilities; and 74.4 acres for roadways. The Laguna Ridge Specific Plan is bounded by State Route 99 on the east, Elk Grove Boulevard on the north, Bruceville Road on the west, and Bilby Road and Poppy Ridge Road on the south.

Environmental Effects

The following environmental issues were evaluated in the Revised Final EIR:

- Agricultural Resources
- Air Quality
- Hazards
- Hydrology and Water Quality
- Geology and Geotechnical Hazards
- Visual Quality
- Transportation and Circulation
- Noise
- Public Services and Utilities
- Biological Resources
- Cultural Resources
- Land Use

The City Council found that the approved Laguna Ridge Specific Plan would have a significant effect on the environment. Significant and unavoidable environmental impacts identified in the Final EIR are summarized below:

- Agricultural Resources (loss of agricultural lands under project and cumulative conditions)
- Transportation and Circulation (increased traffic volumes on local roadways, intersections and state highway facilities under project and cumulative conditions)
- Air Quality (construction emissions, operational emissions, regional impacts under project and cumulative conditions)
- Noise (construction noise and agricultural noise under project and cumulative conditions)
- Biological Resources (cumulative loss of biological resources)
- Public Services and Utilities (cumulative water supply impacts on the Cosumnes River from groundwater production)
- Visual Resources (alteration of scenic resources; conversion from rural to urban uses and light and glare effects under project and cumulative conditions)

The City has adopted a Statement of Overriding Considerations, pursuant to Section 15093 of the CEQA Guidelines.

Availability of the Final EIR and Record of Project Approval

The Final EIR and record of project approval may be reviewed at the following location:
