Project Title: Ambulatory Care Center (ACC) Expansion with Eye Center Project Augmentation

Parties Undertaking Project: UC Davis

Project Location: University of California Davis, 48th Street, Sacramento

County: Sacramento

Project Description: At this time, while the building is under construction, the Project is proposed to be revised to add an additional 2,000 SF to the planned Eye Center building, and to redesign 2 of the 4 floors of the proposed Eye Center building. This project revision would slightly increase the building’s square footage from 76,400 gross square feet (gsf) to 78,400 gsf. The proposed revisions to the Eye Center Project would support the addition of the Center for Ocular Regenerative Therapy (CORT) research clinic to the existing Eye Center program and would be fully consistent with the goals of the original Project, which include improving capabilities of existing eye services, improve patient care and experience, and relieve space constraints on the existing ACC building.

This Notice of Determination is to advise that the University of California Lead Agency has approved the above-described project on *January 7, 2022* and has made the following determinations:

1. *Addendum October 2019* to the UC Davis Sacramento Campus 2010 Long Range Development Plan (LRDP) EIR (SCH# 2009112060) was prepared for this project pursuant to the provisions of CEQA.
2. UC Davis Sacramento Campus 2010 LRDP EIR sufficiently analyzes and addresses potential environmental impacts from the project, and the project will not trigger any of the criteria requiring additional CEQA review pursuant to CEQA Guidelines Section 15162. The project will not result in new significant impacts or a substantial increase in the severity of the environmental impacts identified in the UC Davis Sacramento Campus 2010 LRDP EIR.
3. Mitigation measures from the UC Davis Sacramento Campus 2010 LRDP EIR were made a condition of the approval of the project; no new project-specific mitigation measures are required.
4. The implementation of applicable 2010 LRDP Final EIR mitigation measures will be monitored and reported pursuant to the 2010 LRDP Final EIR’s Mitigation Monitoring and Reporting Program.
5. The previous statement of overriding considerations in the 2010 LRDP Final EIR was reaffirmed for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the Addendum October 2019 to the UC Davis Sacramento Campus 2010 LRDP EIR with comments and responses and record of project approval is available to the general public at: <https://environmentalplanning.ucdavis.edu/current-projects> or UC Davis Office of Environmental Stewardship and Sustainability, 436 Mrak Hall, University of California, Davis, CA 95616, Attn: Matt Dulcich, (530) 752-9597.
