## MEMORANDUM

**Date:** June 14, 2021

**To:** Monterey County Board of Supervisors

**From:** Shandy Carroll, Management Analyst III, HCD

**Subject:** Errata Memo regarding the June 15, 2021 Agenda Item No. 13

**cc:** Erik Lundquist, AICP, Director, HCD

By way of this memo, please note a minor correction to be made to a sentence in the Carmel River Floodplain Restoration and Environmental Enhancement (CRFREE) Project Approval, Board of Supervisors' June 15, 2021 Agenda Item No. 13.

Page 35 of the Draft Resolution (Attachment A), Finding 5.g, impact 3 should be corrected and read as follows:

IMPACT: The CAWD outfall and sewer force main pipelines that cross the south arm of the Carmel River Lagoon are located within the south overbank reach. To mitigate potential adverse effects associated with the Project, the undergrounding of the CAWD outfall and sewer force main ~~wastewater treatment outfall~~ pipelines must be implemented prior to completion of the CRFREE Project.
