Project Title: McCormack-Williamson Tract Levee Modification & Habitat Restoration Project - Phase B

Project Applicant: California Department of Water Resources

Project Location (include county): Sacramento County by Mokelumne and Cosumnes Rivers confluence.

**Project Description:**

The modifications and refinements include adjustments to the proposed levee modifications and habitat restoration activities originally proposed as part of the Phase B Project. The modifications include degrading the MWT Southwest Levee to a higher elevation, repairing the MWT west levee, cutting the existing berm around the scour pond on the east side of the MWT to maintain hydraulic connection, and reuse of excavated sediment to create riparian habitat mitigation.

This is to advise that the California Department of Water Resources has approved the above  
 ( Lead Agency or  Responsible Agency)

described project on 2/5/2024 and has made the following determinations regarding the above  
 (date)  
 described project.

1. The project [ will  will not] have a significant effect on the environment.
2.  An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.  
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [ were  were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [ was  was not] adopted for this project.
5. A statement of Overriding Considerations [ was  was not] adopted for this project.
6. Findings [ were  were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:
