Project Title: UC Davis Solano Water Treatment Plant and Land Use Amendment #1

Project Applicant: University of California, Davis

Parties Undertaking Project: University of California, Davis

Project Location: UC Davis west campus, Hopkins Road

County: Yolo

Project Description: UC Davis proposes the Solano Water Treatment Plant (SWTP) project, which would construct a new fresh water treatment plant along Hopkins Road to utilize UC Davis’ existing water rights from Putah Creek. The project includes an approximately 4-acre fresh water treatment plant, upgrades to the existing Putah Creek pump station, installation of approximately 5,000 feet of fresh water and treated water underground pipelines, stormwater drainage, adjacent landscaping, road connections, sanitary sewer connections, lighting and safety elements. As part of this project, there will be a minor LRDP land use amendment of 4 acres to re-designate the current *Academic & Administrative* land use designation to *Campus Utilities*.

This Notice of Determination is to advise that the University of California Davis Lead Agency has approved the above-described project on *January 10th, 2024* and has made the following determinations:

1. UC Davis 2018 LRDP EIR sufficiently analyzes and addresses potential environmental impacts from the project, and the project will not trigger any of the criteria requiring additional CEQA review pursuant to CEQA Guidelines Section 15162. The project will not result in new significant impacts or a substantial increase in the severity of the environmental impacts identified in the UC Davis 2018 LRDP EIR.
2. *Addendum March 2023* to the UC Davis 2018 Long Range Development Plan (LRDP) EIR (SCH# 2017012008) was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures from the UC Davis 2018 LRDP EIR were made a condition of the approval of the project; no new project-specific mitigation measures are required.
4. The implementation of applicable 2018 LRDP Final EIR mitigation measures will be monitored and reported pursuant to the 2018 LRDP Final EIR’s MMRP.
5. The previous statement of overriding considerations in the 2018 LRDP Final EIR was reaffirmed for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the *Addendum March 2023* to the UC Davis 2018 LRDP EIR with comments and responses and record of project approval is available to the general public online at <https://environmentalplanning.ucdavis.edu/current-projects> and at: UC Davis Office of Environmental Stewardship and Sustainability, 436 Mrak Hall, University of California, Davis, CA 95616, Attn: Heather Davis.
