

March 10, 2022

State Clearinghouse:

The letter is to accompany the updated version of the *Final Environmental Impact Report for the Bayhill Specific Plan including The Phase I Development* and the accompanying appendices. The Final Environmental Impact Report (FEIR) was first posted to CEQANet on August 11, 2021. That iteration of the FEIR included a chapter with text changes to the Draft EIR (DEIR) excerpted and shown in underline and ~~strikeout~~. To improve readability and staff's ability to use the FEIR as a future streamlining document, we requested ICF to prepare another version of the FEIR that includes the complete DEIR with all the changes incorporated in underline and ~~strikeout~~. This updated FEIR, along with the accompanying appendices, is now being submitted for posting on CEQANet. There have been no changes to the EIR text or analysis. Rather, this was a repackaging effort.

Please let me know if you have any questions.

Thank you,

Matt Neuebaumer
