**STATE CLEARINGHOUSE**

CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE  
**CEQA FINDINGS** FOR THE  
AGREEMENT REGARDING PROPOSED LAKE OR STREAMBED  
ALTERATION NO. 1600-2019-0686-R1

**Introduction**

The California Environmental Quality Act (**CEQA**) (Public Resources Code section 21000, *et seq.*) and the State CEQA Guidelines (**Guidelines**) (Section 15000, *et seq.*, Title 14, California Code of Regulations) require that no public agency shall approve or carry out a project for which a mitigated negative declaration (MND) has been completed that identifies one or more significant effects, unless such an agency makes the following finding as to each significant effect:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

As the lead agency for the project, the California Department of Fish and Wildlife (CDFW) adopted the MND for the Project on **December 29, 2017**. CDFW found that the Project will not result in significant environmental effects with the mitigation measures required in or incorporated into the Project.

CDFW is issuing a Lake or Streambed Alteration Agreement (Agreement) to the project applicant, **Mr. Mark Lancaster representing Northwest California Resource Conservation and Development Council**. The project is located **at Little Springs Creek, tributary to Big Springs Creek, in the County of Siskiyou, State of California; Section 9; Township 43 North, Range 5 West, HB&M.**

**Findings**

CDFW has considered the MND adopted for the project and has concluded that the Agreement should be issued under the terms and conditions specified therein. On the basis of the record before CDFW, there is no substantial evidence that the project will have a significant effect on the environment. CDFW finds that the MND reflects CDFW's independent judgment and analysis. In this regard, CDFW hereby adopts the findings set forth in the MND insofar as they pertain to the Project's impacts on biological resources.
