Project Title: Yuba Goldfields 200-Year Flood Protection Project - Addendum 4 to Environmental Impact Report

Project Applicant: Three Rivers Levee Improvement Authority

Project Location (include county): Immediately north of Hammonton-Smartville Road in Yuba County

Project Description:

To reduce the flood risk in the Reclamation District 784 service area, TRLIA constructed a 2.6-mile-long levee with seepage remediation, patrol roads, and access ramps, south of the Yuba Goldfields to intercept flood flows from the Yuba River via the Goldfields, and redirect them to the Yuba River floodplain west of the Yuba Goldfields. The levee was designed to meet USACE and DWR levee design criteria for 200-year flood risk reduction. In addition, two areas in the Goldfields are being modified.

This is to advise that the Three Rivers Levee Improvement Authority has approved the above
 Lead Agency or Responsible Agency

described project on August 17, 2021 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
