State Clearinghouse Number: 2018031027

Project Title: Crimson Solar Project (California Endangered Species Act Amended Incidental Take Permit No. 2081-2021-015-06 Amendment No. 2 (ITP) Corrected)

Project Location (include county): County of Riverside, west of the City of Blythe, south of Interstate 10

Project Description: This proposed project involves a correction to the amended ITP as approved on November 29, 2023 that included: 1) an update to the Authority section of the amended ITP to revise the title of the Principal Officer for two of the three permittees; 2) added language to the Effective Date and Expiration date of this ITP section that states the corrected amended ITP supersedes the November 29, 2023 amended ITP version; and 3) the addition of clarifying language to the previously amended Condition of Approval 7.6 to further describe the monitoring requirements.

The corrections to the amended ITP will not increase the impacts or mitigation as stated in the original ITP. The Project will result in impacts to 1,984 acres of desert tortoise (*Gopherus agassizii*). The project is expected to result in incidental take of desert tortoise, which is designated as a threatened/ candidate endangered species under the California Endangered Species Act.
