| 5/17/2016 | Flyer; Email | Seth Adams (sadams@redwoodcity.org) | <p>Hi Seth-</p> <p>In November of last year we sent you a letter, along with other local government planning departments, local government heritage/preservation commissions, and historical interest groups, with current information regarding the planning and development of the high-speed rail project section being advanced between San Francisco and San Jose. The purpose of this letter was to invite your participation in the cultural resources investigation that will be conducted in accordance with Section 106 of the National Historic Preservation Act, as well as the National Environmental Policy Act and the California Environmental Quality Act.</p> <p>You responded by email, and provided information on historic resources in Redwood City. You also requested to be kept informed. Preliminary cultural resources studies have started to identify known resources. I have forwarded your email with the link to the consulting historians.</p> <p>We are continuing to move ahead with planning for this and other rail sections. I wanted to call your attention to some public scoping meetings that are planned this month specifically for the San Francisco to San Jose Project Section, which spans San Francisco, San Mateo, and Santa Clara Counties. Please see the attached flyer, which provides the dates and locations of the three meetings scheduled to occur this month. Public scoping meetings are a good way to learn more about the project and to speak directly with technical, environmental, and engineering staff.</p> <p>Meg Scantlebury, MAHP</p> |

| 5/17/2016 | Flyer; Email | Burlingame, Jennifer Pfaff (jjpf@pacbell.net) | <p>Hi Jennifer -</p> <p>In November 2015 we sent you a letter . . . with current information regarding the planning and development of the high-speed rail project section being advanced between San Francisco and San Jose . . . We since discussed Francard Historic Tree Row. I have passed that information on to the engineers to make sure they are aware of them, and the consultant doing the cultural resources study. I'll keep you informed on that subject.</p> <p>We are continuing to move ahead with planning for this and other rail sections. I wanted to call your attention to some public scoping meetings that are planned this month specifically for the San Francisco to San Jose Project Section.</p> <p>Tuesday, May 17, 2016 1:16 PM</p> <p>Hi Meg, Thanks for the heads up. I wanted to make sure you have this completed paperwork on the Francard Tree Rows (Parcel I) and Parcel II, along the tracks, all planted by John McLaren in the late 1800s. Aisha Fike from ICF worked on it last spring and sent it to SHPO for concurrence with National Register Listing eligibility. We also have the Severn Dairy Wallscape designated as a California Historical Point of Interest, and it is very close to the Caltrain ROW to the south, but not in it. I'm sending that along, too, just in case. I think you already have reports on the Burlingame, and Broadway Railroad Stations, right? Additionally, the Burlingame Square area, forming a Square through the Caltrain ROW and in a Square around the station area, formed by North, South, East and West-Lane is the birthplace of this city's early businesses. See basic history on attached document. I think I sent a binder of materials to Oakland many years ago, but I'm not sure if I have to redo all of that, again. It must exist somewhere with the original consultants, but perhaps you can check. It was a huge amount of work to get together.</p> |
