Contact: Mark Campbell, Superintendent

The Calaveras Unified School District (CUSD) is the Lead Agency pursuant to the California Environmental Quality Act (CEQA) for the proposed Jenny Lind Elementary School Wastewater Regionalization Project. The CUSD intends to adopt a Mitigated Negative Declaration for this proposed project.

The Jenny Lind Elementary School (JLES) and associated wastewater collection facilities are located both east and west of State Route (SR) 26 south of the community of Valley Springs in western Calaveras County in the western foothills of the Sierra Nevada as described in more detail in the Initial Study/Mitigated Negative Declaration (IS/MND). The CUSD is considering whether approve the construction and operation of wastewater collection facilities that will allow the wastewater produced by the JLES to be treated by the regional wastewater treatment facility, the La Contenta community wastewater treatment plant operated by the Calaveras County Water District.

The proposed IS/MND is available for public review from 8:00 a.m. to 4:00 p.m., Monday through Friday, at the offices of the Calaveras Unified School District address listed above.

The public comment period on the IS/MND begins on October 11, 2023 and ends on November 9, 2023. Comments may be submitted to “mcampbell@calaveras.k12.ca.us” and should include the phrase “Jenny Lind Elementary School Wastewater Regionalization Project IS/MND” in the subject line. The public hearing for the project is tentatively scheduled to be heard at 6:00 p.m. on Tuesday, November 14, 2023 during a meeting of the CUSD Board of Trustees, located at the CUSD office at 3304 Highway 12, San Andreas, CA 95249.
