

CALIFORNIA ENVIRONMENTAL QUALITY ACT NOTICE OF DETERMINATION

To: Office of Planning and Research
State Clearinghouse
P.O. Box 3044, 1400 Tenth Street, Room 212
Sacramento, CA 95812-3044

From: Department of Toxic Substances Control
Permitting Division
8800 Cal Center Drive
Sacramento, CA 95826

Subject: Filing of Notice of Determination in Compliance with Section 21108 of the Public Resources Code

Project Title: U.S. Navy Public Works Center, NAS North Island, also known as, Naval Air Station North Island (NASNI) Hazardous Waste Facility Permit Renewal

State Clearinghouse Number: 1996051063

Project Location: Building 1606, San Diego, CA 92135

County: San Diego County

Project Applicant: Christina Graulau

Project Description: The California Department of Toxic Substances Control (DTSC) adopted an Addendum to the previous Initial Study/Negative Declaration and approved the Hazardous Waste Facility Standardized Permit to continue operating a Hazardous Waste Treatment and Storage Facility for Resource Conservation and Recovery Act (RCRA) hazardous waste, pursuant to authority granted under California Health and Safety Code Chapter 6.5 and California Code of Regulations, Title 22, Division 4.5, Chapter 20. The term of this Permit is ten years from the date of issuance.

Naval Air Station North Island (NASNI) is a permitted Hazardous Waste Facility (HWF) that operates as a Hazardous Waste Treatment and Storage Facility for RCRA hazardous waste. All permitted hazardous waste treatment and storage units are located within an area known as the HWF Complex, which is located at the center of the base. The HWF Complex at NASNI includes several permitted units described as individual facilities: an industrial waste treatment plant; an oil recovery plant; a containerized waste area for industrial waste sludge under a filter press, a containerized waste area for oily waste sludge under two filter presses, a containerized waste storage area for industrial waste and oily waste sludge and maintenance related wastes, a collection, storage, and transfer facility (CST-2); and a collection, storage, and transfer (CST-1) facility. Because the permitted activities are consistent with operations of a previously approved project, DTSC has prepared an addendum to a previously adopted Negative Declaration (State Clearinghouse No. 1996051063) consistent with Public Resources Code section 21166 and California Code of Regulations, Title 14, sections 15162-15164.

As Lead Agency under the California Environmental Quality Act (CEQA), DTSC approved the above-described project on February 24, 2022, and has made the following determinations:

1. The project will not have a significant effect on the environment.
2. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were not made a condition of project approval by DTSC.
4. A Statement of Overriding Considerations was not adopted for this project by DTSC.
5. Findings were not made pursuant to the provisions of CEQA by DTSC.

The administrative record for this project is available to the public by appointment at the following location:
