MAR 21 2019

STATE CLEARINGHOUSE

Dear Mr. Morgan:

Enclosed are fifteen copies of the proposed report of the Chief of Engineers and the report of the district engineer, including the Final Environmental Assessment (EA) on the Yuba River Ecosystem Restoration Feasibility Study, California. Included with the report of the district engineer is a Final Environmental Assessment prepared in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969 (Public Law 91-190).

In accordance with Executive Order 12372, Intergovernmental Review of Federal Programs, and the State process instituted by California, we request your comments and recommendations, as the State single point of contact, on the proposed report. As set forth in Public Law 78-534 (as amended by Public Law 104-303) pertaining to coordination procedures on water resources reports and Public Law 85-624 pertaining to fish and wildlife, please submit your comments and recommendations (including the views of the agency responsible for fish and wildlife) within 30 days. Please address responses to:

Headquarters
U. S. Army Corps of Engineers
CECW-P (SA)
7701 Telegraph Road
Alexandria, VA 22315-3860

The position of the State of California will be considered in determining whether the proposed report of the Chief of Engineers should be changed prior to its transmittal to the Secretary of the Army. If all State process recommendations cannot be accommodated in the final report of the Chief of Engineers, you will be so informed. When the Secretary of the Army transmits the report to Congress your comments will be included.

I appreciate your assistance with this review. Any questions on the proposed project or this request can be addressed to Mr. Mark Matusiak at (202) 761-4700.

Sincerely,

Eric L. Bush
Acting Chief, Planning and Policy Division
Directorate of Civil Works
