Subject: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

State Clearinghouse Number (if submitted to State Clearinghouse): 2006042175

Project Title: Davis-Woodland Water Supply Project ("DWWSP")

Project Location (include county): Yolo County (see 2007 DWWSP EIR for more detailed description)

Project Description: The 2007 DWWSP EIR describes the need for water supply transfer agreements when the diversion prohibition in the State Water Board's Standard Permit Term 91 (Term 91) is in effect. To provide a reliable water supply during such conditions, the Project Partners may enter into water supply transfer agreements with holders of senior water rights or contracts with the Bureau of Reclamation for diversions within the Sacramento River watershed. During periods when the Term 91 diversion prohibition is in effect, the Project Partners would divert water through transfer agreements or sales, as authorized by such senior water rights or contracts.

The 2007 DWWSP EIR identified several senior water rights holders as potential suppliers to the Project Partners when the Term 91 diversion prohibition is in effect. Since that time, additional potential suppliers have been identified, including The Nature Conservancy. The Nature Conservancy has a flow-based water right from Mill Creek, which discharges into the Sacramento River. The Nature Conservancy would ensure water flow in Mill Creek to the Sacramento River for benefit of salmon and the Agency would divert it approximately 120 miles downstream. Initially, The Nature Conservancy is willing to agree to a lease of up to 3.0 TAF annually during the period of November 1, 2021 through March 31, 2022 at a rate of up to 8.0 million gallons per day (MGD).

This addendum addresses the potential lease of The Nature Conservancy water (up to 3.0 TAF) to the Agency during the period of November 1, 2021 through March 31, 2022. The water would be diverted at the DWWSP intake/diversion structure, located on the Sacramento River, at rate not to exceed 8.0 MGD up to a total of 3.0 TAF.

This is to advise that on October 20, 2021, the Woodland-Davis Clean Water Agency ("WDCWA"), acting as CEQA lead agency, approved addendum # 13 to the EIR for the DWWSP that the City of Davis (then acting as CEQA lead agency) certified on October 16, 2007. WDCWA approved Addendum #13 and found and determined that, considering the changes in the project are described in Addendum #13, the 2007 EIR remains adequate and no subsequent EIR or further CEQA review is required for the DWWSP.

This is to certify that copies the approved CEQA addendum are available to the General Public at: Woodland-Davis Clean Water Agency, 855 County Road 102, Woodland, CA 95776

Project Title: Davis-Woodland Water Supply Project

Project Location (include county): Cities of Davis, Woodland and UC Davis Campus in Yolo County

Project Description:

The objective of the project is to develop a reliable water supply of adequate quality for drinking and cost-effective wastewater treatment in Davis, Woodland, and UC Davis through 2040 without removing a source of irrigation supply that will cause fallowing of agricultural land. The Project Partners propose to acquire a new surface water supply from the Sacramento River and to construct and operate water intake/diversion, conveyance, and treatment facilities so that the Project Partners can use treated surface water in their respective service.

This is to advise that the City of Woodland has approved the above described project on November 6, 2007 and has made the following determinations regarding the above described project:

- 1. The project will will not have a significant effect on the environment.
- 2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
- 3. Mitigation measures were were not made a condition of the approval of the project.
- 4. A mitigation reporting or monitoring plan was was not adopted for this project.
- 4. A statement of Overriding Considerations was was not adopted for this project.
- 5. Findings were were not made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at: City of Davis Public Works Department, 1717 5th Street, Davis CA 95616
