Project Title: Butano State Park Forest Health Project

Project Location: Pescadero, CA

Project Description: The California Department of Parks and Recreation (California State Parks) proposes to implement vegetation treatments and maintenance treatments on 2,103.6 acres of land within Butano State Park in San Mateo County. California State Parks has prepared a Project-Specific Analysis and CEQA Addendum to evaluate if the proposed project is within the scope of the California Vegetation Treatment Program EIR (CalVTP PEIR), consider revisions or changes to the PEIR that would expand its coverage to include all project areas, and provide environmental information on the proposed project. Treatment types, including maintenance treatments, would include fuel break, WUI fuel reduction, and ecological restoration treatments. Treatment activities include prescribed burning, manual and mechanical thinning, and herbicide application. The purpose of these treatments is to reduce density and continuity of dead, dying, diseased and overly dense vegetation and promote biodiverse ecosystems dominated by a mosaic of healthy vegetation representing various size and age-classes. The Butano State Park Forest Health Project PSA/Addendum to the PEIR was prepared for the project as a later activity covered by the CalVTP PEIR.

This Notice of Determination is to advise that the California Department of Parks and Recreation Lead Agency has approved the above-described project on November 23, 2022 and has made the following determinations:

For a PSA/Addendum to an EIR:

1. The project (will []will not) have a significant effect on the environment.
2. Butano State Park Forest Health Project PSA/Addendum to the CalVTP PEIR (SCH# 2019012052) (was []was not) prepared for this project pursuant to the provisions of CEQA.
3. The CalVTP PEIR sufficiently analyzes and addresses potential environmental impacts from the project, and the project will not trigger any of the criteria requiring additional CEQA review pursuant to CEQA Guidelines Section 15162. The project ([]will will not) result in new significant impacts or a substantial increase in the severity of the significant environmental impacts identified in the CalVTP PEIR.
 - a. The elements of the proposed project that would be implemented in project areas within the CalVTP treatable landscape (are []are not) within the scope of the CalVTP PEIR consistent with CEQA Guidelines Section 15168(c)(2), as documented in the PSA.
 - b. The elements of the proposed project that would be implemented in areas outside the CalVTP treatable landscape ([]would would not) result in the occurrence of any of the conditions described in State CEQA Guidelines Section 15162 calling for preparation of a subsequent EIR; therefore, an Addendum has been adopted to address the project areas outside the geographic extent presented in the PEIR.
4. Mitigation measures and standard project requirements from the CalVTP PEIR (were []were not) made a condition of the approval of the project; no new project-specific mitigation measures are required.
5. The implementation of applicable CalVTP PEIR mitigation measures and standard project requirements (will []will not) be monitored and reported pursuant to the Mitigation Monitoring and Reporting Program.
6. The previous statement of overriding considerations in the CalVTP PEIR (was []was not) reaffirmed for this project by the California Department of Parks and Recreation.
7. Findings (were []were not) made pursuant to the provisions of State CEQA Guidelines Section 15091.

This is to certify that the Butano State Park Forest Health Project PSA/Addendum to the CalVTP PEIR and record of project approval are available to the general public via California State Parks at 303 Big Trees Park Road, Felton, Ca, 95018. The custodian of these documents is Tim Hyland, Senior Environmental Scientist. Please contact Tim Hyland at tim.hyland@parks.ca.gov or (831) 335-6318 to arrange document viewing.
