RE: SCH# 2015102005
Medical Marijuana Land Use Ordinance – Phase IV

We are requesting assistance with correcting the CEQAnet listing for SCH# 2015102005. The following page includes the correct information for the project, as taken from the Notice of Determination posted with the Humboldt County Clerk-Recorder on January 28, 2016. The Mitigated Negative Declaration was circulated to the State Clearinghouse in October 2015.

Project Title:

Medical Marijuana Land Use Ordinance – Phase IV

Project Applicant:

Humboldt County Planning & Building Department

Project Location:

Humboldt, applies county-wide

Project Description:

Amendments to the Zoning Ordinance intended to provide for regulations of land uses involving commercial cultivation of cannabis for medical use. The ordinance regulates the cultivation by licensed operators, in compliance with relevant state and local laws. The fourth phase of the Humboldt county “Medical Marijuana Land Use Ordinance,” the proposed ordinance would regulate an existing land use to help prevent and reduce environmental impacts known to result from unpermitted baseline cultivation operations. The ordinance develops pathways for compliance with new and existing regulations, while providing for review, inspection, and oversight.
