SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 2015102005

Project Title: Studebaker Stream Crossings and Bank Stabilization Project (Streambed Alteration Agreement No. 1600-2018-0730-R1)

Project Location: The project is located within the Redwood Creek watershed, approximately 2.8 miles west of the town of Redway, County of Humboldt, State of California; Section 8, T04S, R03E, Humboldt Base and Meridian, in the Briceland U.S. Geological Survey 7.5-minute quadrangle; Assessor's Parcel Number 220-261-008; latitude 40.1229 N and longitude 123.8809 W at the first stream crossing.

Project Description: The project is limited to three encroachments (Table 1). One encroachment involves an existing reservoir located adjacent to a stream. Work will involve hydrologically disconnecting the reservoir outlet from the stream and directing flow to a rocked bioswale. Permittee shall implement a Bullfrog Monitoring and Management Plan for the reservoir. One encroachment is upgrade an undersized stream crossing. Work for this encroachment will include excavation, removal of the existing culvert, replacement with new properly sized crossing, backfilling and compaction of fill, and rock armoring as necessary to minimize erosion. One encroachment is for a combination of stream crossing upgrade and streambank stabilization completed pursuant to a plan prepared by a California licensed engineer.

Table 1. Project Encroachments with Description

ID	Latitude/Longitude	Description
Reservoir-1	40.1229, -123.8806	Hydrologically disconnect reservoir outlet from the stream and direct overflow to rocked bioswale. Permittee shall implement a Bullfrog Monitoring and Management Plan for the reservoir.
Crossing-1	40.1229, -123.8809	Replace existing culvert with minimum 60" diameter culvert. Rock armor inlet and outlet.
Crossing-2 & Stream Bank Stabilization	40.1239, -123.8813	Upgrade existing culvert and implement streambank stabilization. Permittee shall submit a Stream Bank Stabilization Plan prepared by a California licensed engineer for CDFW review and approval by May 31, 2021, for the streambank stabilization and crossing upgrade.

Determination: This is to advise that CDFW, acting as the Lead Agency / a Responsible Agency approved the above described project and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. A mitigated negative declaration / negative declaration was prepared for this project pursuant to the provisions of CEQA.
CDFW considered the mitigated negative declaration / negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were / were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was / was not adopted by CDFW for this project.
5. A Statement of Overriding Considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to Public Resources Code section 21081, subdivision (a).

The mitigated negative declaration / negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record related to the Lake or Streambed Alteration Agreement is available to the public for review at CDFW's regional office.
