SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 2015102005

Project Title: Salter Water Diversion and Stream Crossings Project (Lake or Streambed Alteration Agreement (LSAA) No. 1600-2020-0133-R1)

Project Location: The project to be completed is located within the South Fork Eel River watershed, approximately 2.3 miles southwest of the town of Garberville, County of Humboldt, State of California. The project is located in Section 27 & 34, T4S, R3E, Humboldt Base and Meridian; in the Garberville U.S. Geological Survey 7.5-minute quadrangle; Assessor's Parcel Number 222-093-002.

Project Description: The California Department of Fish and Wildlife has executed LSAA No. 1600-2020-0133-R1, pursuant to section 1602 of the Fish and Game Code to Jake Salter. The project consists of six encroachment(s): One encroachment is for water diversion from an unnamed tributary to the South Fork Eel River. Water is diverted for domestic use. Work for the water diversion will include facility retrofit, use, and maintenance of the water diversion infrastructure. One encroachment is for the removal of existing water diversion infrastructure. One encroachment is to install an engineered French drain on a highly modified Class III stream channel and to recontour a portion of the stream bed, bank, and channel. Work for this encroachment will include excavation, stream recontouring, placement of French drain infrastructure, and backfilling with gravel. Two encroachments are to decommission dirt ford crossings and restore the stream channel. One encroachment is to upgrade an undersized culvert. Work for this encroachment includes excavation, undersized culvert removal, replacement with a new properly sized culvert, backfilling and compaction of fill, and rock armoring as necessary to minimize erosion.

This is to advise that CDFW, acting as the Lead Agency / a Responsible Agency approved the above described project and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. A mitigated negative declaration / negative declaration was prepared for this project pursuant to the provisions of CEQA.
CDFW considered the mitigated negative declaration / negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were / were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was / was not adopted by CDFW for this project.
5. A Statement of Overriding Considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to Public Resources Code section 21081, subdivision (a).

The mitigated negative declaration / negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record related to the Lake or Streambed Alteration Agreement is available to the public for review at CDFW's regional office.
