Project Title: Eversole Stream Crossings and Restoration Project (Lake or Streambed Alteration Agreement No. 1600-2019-0505-R1)

Project Location: The project is located within the Chamise Creek watershed, approximately 12 miles SE of the town of Garberville, County of Humboldt, State of California; Assessor's Parcel Number 218-111-004; latitude 40.02441 N and longitude 123.59270 W at the point of diversion.

Project Description: The project is limited to five encroachments. One encroachment is for water diversion from unnamed tributaries to Chamise Creek. Water is diverted for domestic use only. Work for the water diversion will include use and maintenance of the water diversion infrastructure. Three other proposed encroachments are to upgrade failing and undersized stream crossings. Work for these encroachments will include excavation, removal of the failing crossings, replacement with new properly sized crossings, backfilling and compaction of fill, and rock armoring as necessary to minimize erosion. The fifth proposed encroachment is to decommission a subterranean stream, spring fed pond and restore the area.
